Dear Mr. Keka,

Thank you in advance for your time.

I am addressing you personally, because I heard from Peta (People for the Ethical Treatment of Animals) that they were signed with an email by Harald Ullmann, among others, that they were harassed and tried to coerce!

My name is Silvio Harnos and I have made it my business to educate people about Peta's criminal activities. In addition, I have been running the journalistic website [www.gerati.de](http://www.gerati.de) since 2014!

I am proud that an African company is in direct competition with NASA, ESA and Roskosmos. I wish you and all employees in your company every success in testing Troposphere 6!

I would like to provide you with some background information on the allegations that Peta is accused of for the missile test!

Peta kills 90% of all animals passed to her in the US. And that, even though Peta collects more than 35 million USD in donations from animal welfare, Peta refuses to build an animal shelter and to look after the animals that have been given to her!

Surely you have heard of the scandalous lawsuits in the United States where Peta filed a lawsuit to bankrupt a photographer. Peta ultimately lost the case, although Peta claims to have won the case.

In the US, Peta families steal dogs and don't even comply with state law. It is mandatory that found animals are kept for 72 hours. In the case of the family dog Maya, Peta not only stole the dog of a seven year old girl, no, they killed the dog within 4 hours! The family then sued Peta for \$ 7 million in damages!

Harald Ullmann, one of the signatories of Peta's letter, had to face legal proceedings (sedition) in Germany because he compared Jewish prisoners in a German concentration camp during the Nazi era with animals in agriculture.

In Germany, Peta repeatedly made statements that criminal offenses in the environment of animal rights activists are a legitimate means of animal rights work. An employee of Harald Ullmann announced in an interview the establishment of a Terrorist organization in the name of animal rights!

As you can see, Peta is anything but an animal welfare organization! It can be seen as a sect!

If you need more information about Peta, I am at your disposal!

I wish you and your employees and supporters every success with the start of Troposphere 6!

Kind regards

Silvio Harnos

(Freelance journalist and animal rights expert)
